

ROYSTIAN FOUNDATION

Student Career & Industry Readiness Platform

Website V2 — Product Enhancement & Expansion Blueprint

From Demo to Full Platform

The Existing Website Is Our Foundation

The current demo already establishes virtual internships, 12 career domains, Self-Paced and Industry-Led programs, assessments, practical activities, projects, certificates, college engagement, and PehlaChance integration.

V2 Objective

Transform the existing website from an internship information website into a **Student Career & Industry Readiness Platform**.

The Goal

Not to replace the existing website — **the goal is to evolve it.**

The New Product Vision

Don't Just Get an Internship. Build Career Evidence.

Roystian Foundation should help students move through a complete career development journey:

1

Learn

Build knowledge

2

Practice

Apply concepts

3

Build

Create projects

4

Prove

Demonstrate skills

1

Showcase

Build professional evidence

2

Prepare

Get career-ready

3

Get Selected

Compete for advanced opportunities

4

Experience

Gain real-world exposure

One Website. Multiple Experiences.

The existing Roystian Foundation website should become the **main institutional platform**, housing multiple experiences inside the same ecosystem.

🎓 Student Platform

Learning + Internship + Projects + Career

🏫 College Platform

Student Management + Analytics + Skill Reports

🚀 Opportunity Platform

Challenges + Advanced Internship + Career Opportunities

🛡️ Verification Platform

Certificates + Student Profiles + Project Evidence

The Public Website Becomes the Front Door

The homepage must quickly answer the core questions of five primary audiences:

Students

"What will I actually get?"

Parents

"Is this legitimate and useful?"

Colleges

"Why should we partner?"

Industry / Startups

"What kind of talent is being developed?"

Foundation / Partners

"What impact is being created?"

New Homepage Positioning

Don't Just Get an Internship. Build Career Evidence.

Learn. Build. Prove. Get Opportunity.

Structured internships, practical projects, skill assessments and career tools designed to help students move from academic learning toward practical industry readiness.

Primary CTA

Explore Internships

Secondary CTA

Partner With Us

The New Homepage Story

The homepage should follow a deliberate narrative sequence to guide every visitor from problem to solution to action:

01

The Student Problem

02

Our Solution

03

How It Works

04

Career Domains

05

Program Options

06

Projects & Assessments

07

Career Passport

08

Career Readiness

09

Advanced Internship Opportunities

10

College Programs

11

PehlaChance Pathway

12

Impact & Trust → Final CTA

The Student Problem

A Degree Is Important. But Students Also Need Evidence.

Students often need more than academic qualifications to demonstrate readiness for professional opportunities. They need practical exposure, projects, demonstrable skills, professional profiles, interview preparation, career guidance, and industry-oriented experience.

Roystian's role: Turn learning into demonstrable career evidence.

The Roystian Difference

We Don't Want Students to Leave With Only a Certificate.

A completed program should help students build a complete professional foundation:

Skills & Practical Work

Domain knowledge + hands-on assignments + real projects

Performance Evidence

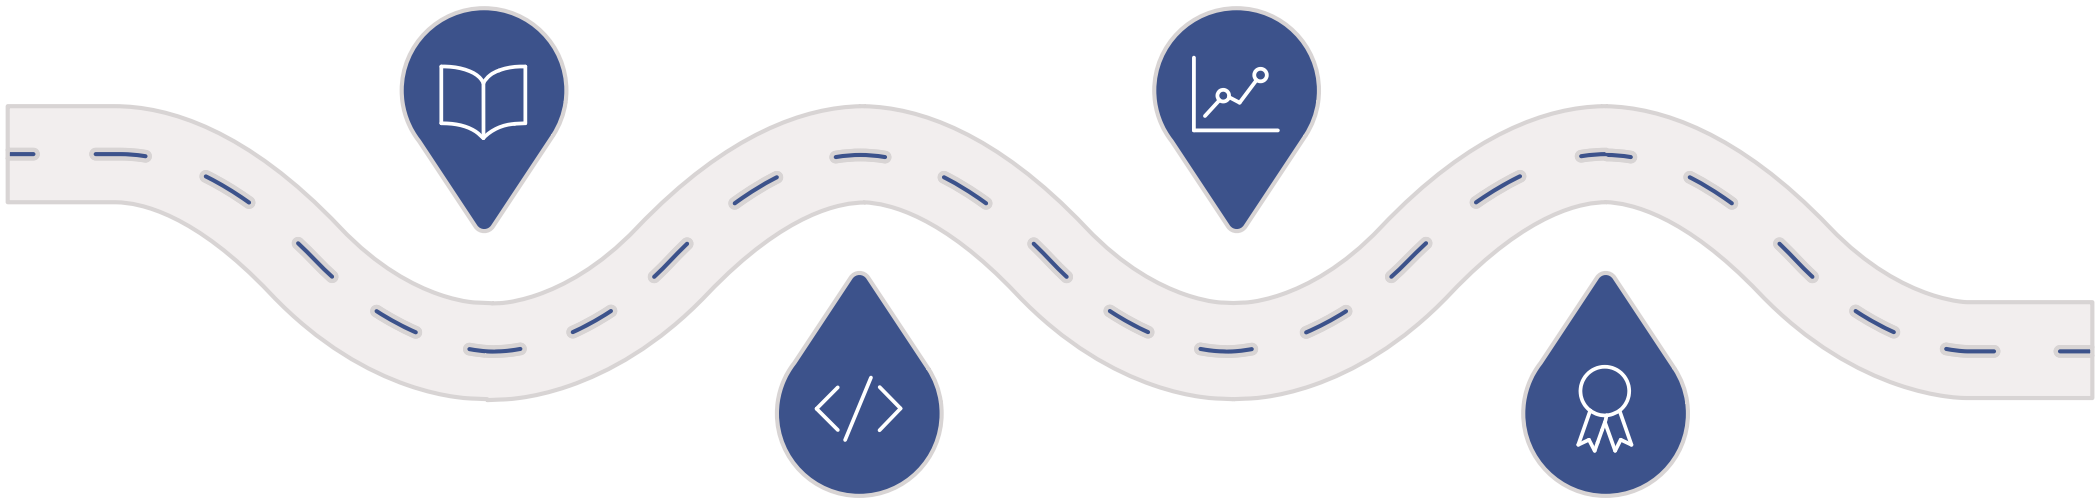

Assessments + career portfolio + verified certificate

Career Readiness

Resume + LinkedIn profile + mock interview experience

Your Roystian Journey

Begin Learning

Start coursework in chosen domain

Build Projects

Apply skills through real projects

Receive Insights

Get performance feedback and analytics

Become Eligible

Qualified for advanced selection opportunities

Every step builds on the last — from choosing a domain to becoming eligible for advanced opportunity selection.

Choose Your Career Track

The existing 12-domain structure should remain, organized across three clusters. Each domain should have its own overview, learning pathway, skills, projects, assessments, career applications, and program options.

Technology

AI & Machine Learning · Full Stack Development · Python · Java · Software Testing · Software Development

Data & Business

Data Analytics · Business Analytics · Sales & Marketing

Emerging / Engineering

IoT & Electronics · Mechanical · Sustainability

Every Domain Should Answer 5 Questions

This prevents domain pages from becoming simple course descriptions and ensures every student understands the full value of their chosen track.

1. What will I learn?
2. What will I practice?
3. What will I build?
4. How will I be assessed?
5. What career pathways can these skills support?

Two Ways to Start

The website should visually compare both programs so students can choose the right level of engagement.

₹1,500

Self-Paced

Career Starter

For flexible learning and practical exposure.

₹5,000

Industry-Led

Industry Sprint

For students seeking deeper practical experience, mentorship and career preparation.

Career Starter — ₹1,500

Self-Paced Program

Structured Learning

Domain-specific modules + assessments + practical assignments

Mini Project

Internship completion certificate + certificate verification + skill badges

Career Foundation

Career assessment + digital portfolio + basic resume support

Start Your Internship

Industry Sprint — ₹5,000

Industry-Led Program

Everything in Career Starter, plus:

Mentorship

Interactive sessions + mentor interactions + guided project support

Advanced Work

Industry-oriented project + industry challenge + advanced assessments

Career Tools

Mock interview + ATS resume + LinkedIn profile support + career guidance

Opportunity

Advanced portfolio + PehlaChance pathway + eligibility for advanced opportunity selection

Join Industry Sprint

The 15-Day Industry Sprint

Don't market it simply as a "15-Day Internship." Position it as a focused, structured experience:

> **15 days of focused learning, practical work and career preparation.**

1. **10+ Learning Modules**
2. **Practical Assignments**
3. **Industry-Style Project**
4. **Skill Assessments**
5. **Portfolio + Certificate**

Student Dashboard

Career Readiness Score

How Career Ready Are You? 78 / 100

Performance Areas

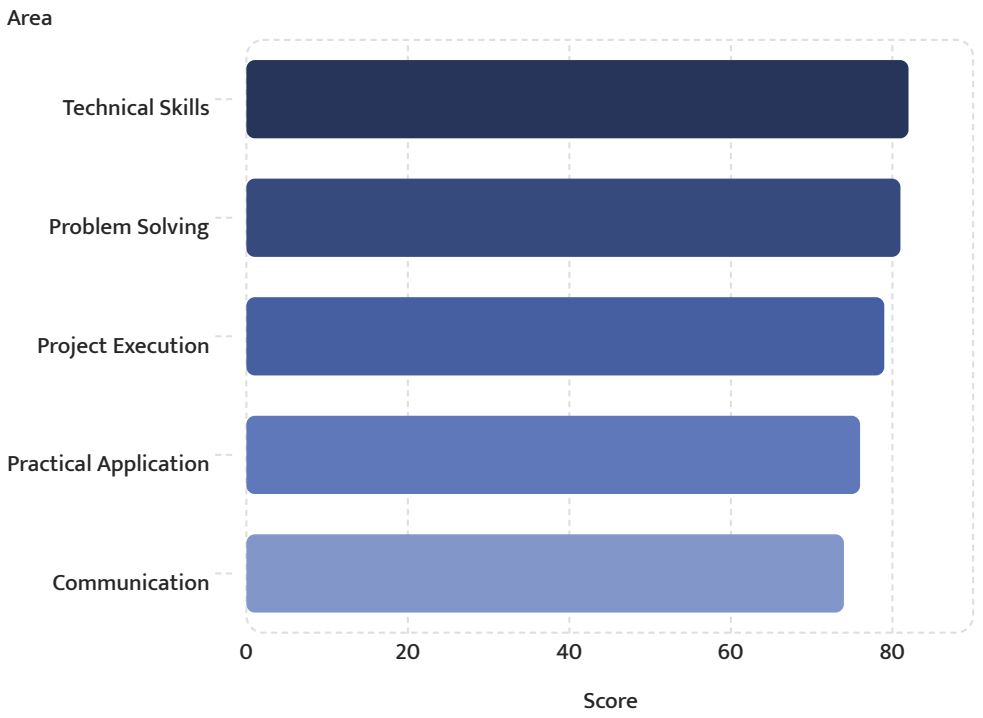

Technical Skills — 82 · Practical Application — 76 · Problem Solving — 81 · Communication — 74 · Project Execution — 79

Your Strengths

✓ Python · ✓ Data Analysis · ✓ Problem Solving

Improve Next

→ Communication · → Git/GitHub · → Interview Preparation

The score should be based on actual platform activity and assessment data — not presented as a guarantee of employment.

Career Passport

Your Career Evidence. In One Place.

Every student should eventually have a digital Career Passport — a single, shareable record of their professional development.

Profile & Experience

Name + Education + Internships

Skills & Certificates

Verified skills + credentials + badges

Projects & Evidence

Completed work + assessments + career readiness summary

Digital Portfolio

Don't Just Say You Have Skills. Show Them.

Students can showcase projects, practical assignments, skills, assessments, certificates, achievements, internship experience, and Career Readiness Score — all at a shareable profile link: **roystianfoundation.org/profile/XXXX**

Designed for sharing on LinkedIn, resume, email, job applications, and PehlaChance.

Real-World Projects

Build Projects That Tell a Story

Instead of generic assignments, introduce structured industry-style problems. Example: **Customer Churn Prediction**

Student Receives

- Problem statement
- Dataset
- Requirements & deliverables
- Evaluation criteria

Student Produces

- Analysis & solution
- Results & recommendations
- Project report

Final Output

Project + Evaluation + Portfolio Evidence

Roystian Industry Challenge

Can You Solve a Real Problem?

Introduce recurring challenges where students demonstrate their ability to apply knowledge rather than simply consume content.

AI Challenge

Coding Challenge

Data Challenge

Software Testing Challenge

Business Case Challenge

Sustainability Challenge

Skill Badges

Your Skills. Your Evidence.

Students can earn skill badges based on demonstrated performance. Badges should be connected to actual assessments, projects, or activities — not awarded automatically.

🏆 Python Fundamentals

🏆 Data Analysis

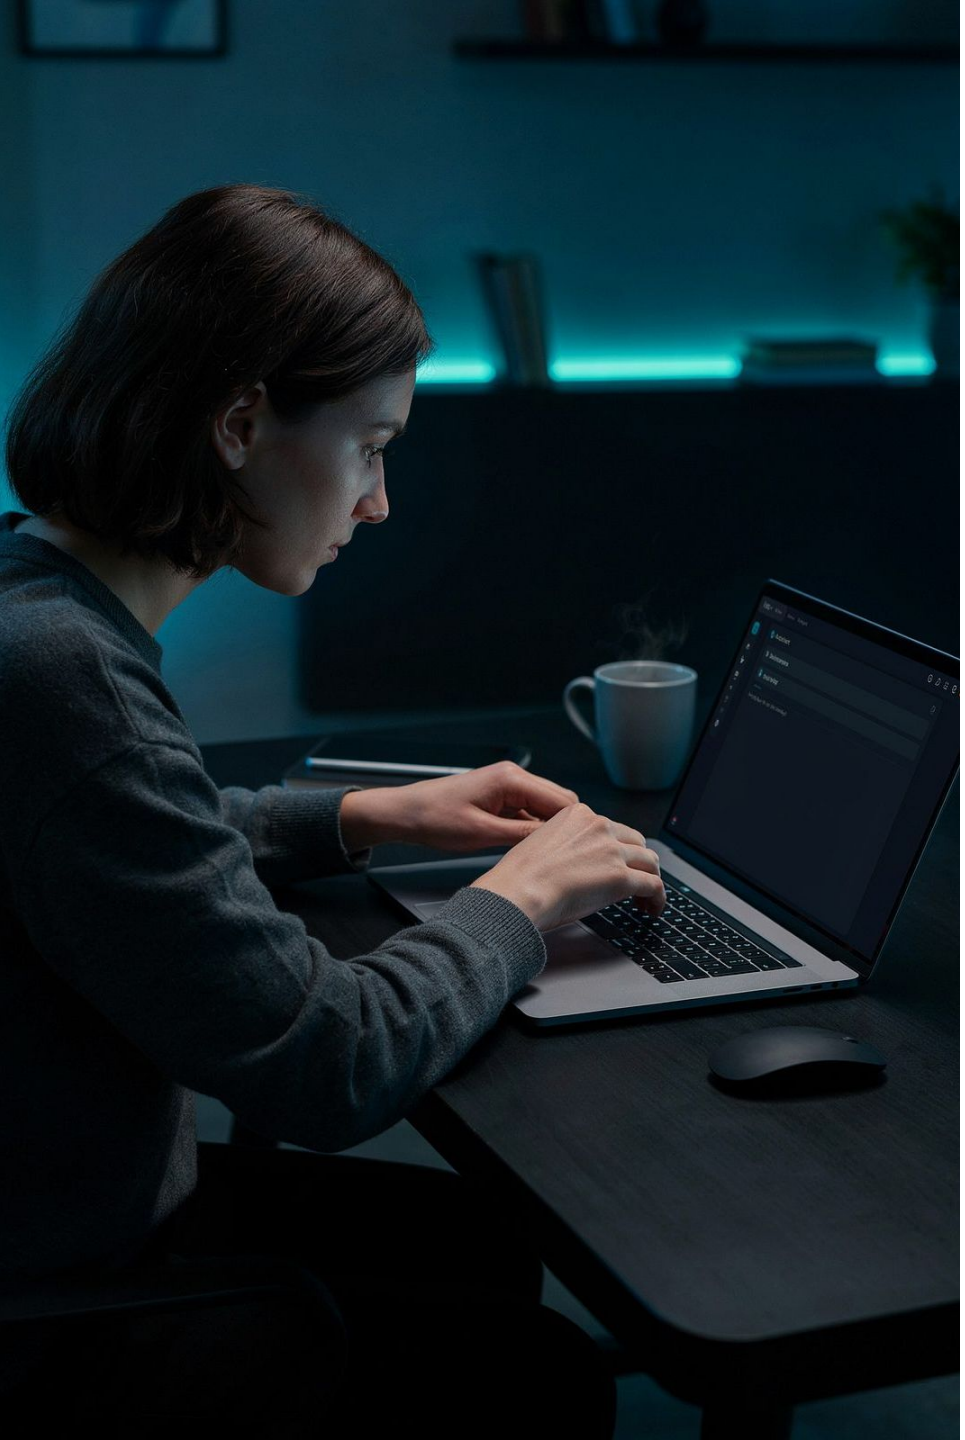

🏆 Machine Learning

🏆 Problem Solving

🏆 Project Execution

🏆 Industry Challenge

🏆 Career Ready

Meet Your AI Career Assistant

Students can interact with an AI assistant for personalized career support throughout their journey.

"What careers match my skills?"

"Improve my resume."

"Prepare me for an interview."

"What should I learn next?"

Future AI capabilities include career guidance, resume support, interview preparation, skill-gap analysis, project guidance, and LinkedIn About section generation.

Resume Builder

Turn Your Experience Into a Professional Resume

Student information from the platform can be transformed into a complete, professional resume:

ATS-Friendly Resume

Formatted for applicant tracking systems used by employers

Skills & Projects

Domain skills section + detailed project descriptions

Full Experience

Internship experience + certifications + achievements

Build My Resume

LinkedIn Profile Builder

Build Your Professional Identity

Generate support for every section of a student's LinkedIn profile, turning their Roystian experience into a compelling professional presence.

Headline

About Section

Internship Description

Project Description

Achievements

Build My LinkedIn Profile

Mock Interview Centre

Practice Before the Real Interview

Technical Interview

Domain-specific technical questions and problem-solving scenarios

HR Interview

Behavioral and situational questions for professional readiness

Project Interview

Present and defend completed work with performance feedback

Students receive performance feedback, areas to improve, and practice recommendations after each session.

Advanced Internship Pathway

Perform. Get Selected. Get Industry Experience.

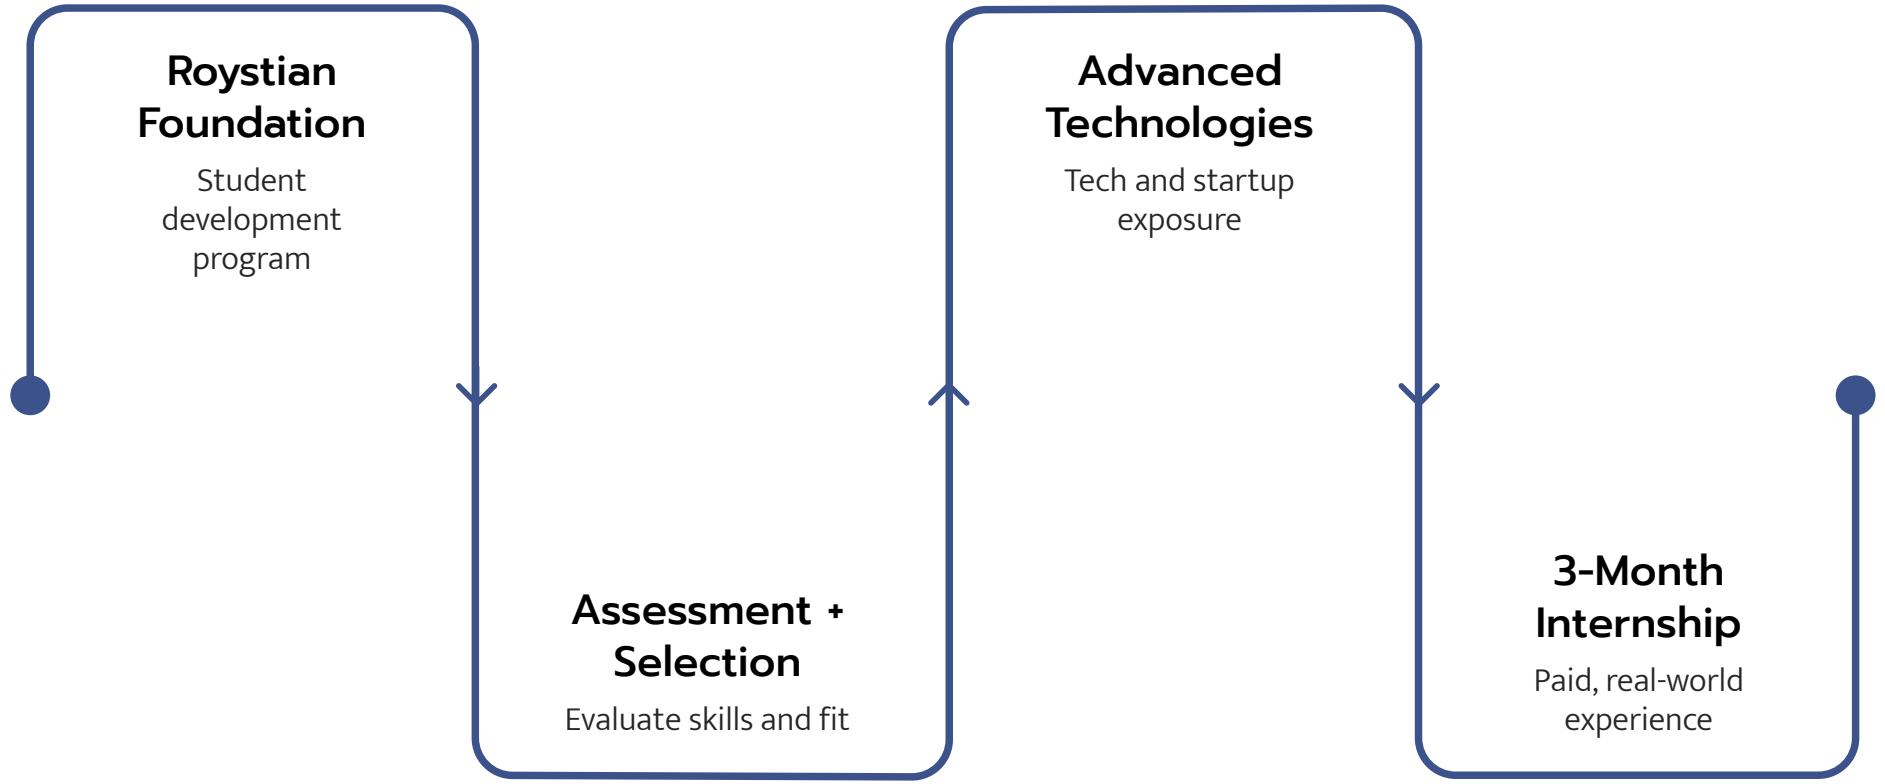

High-performing students may be shortlisted for a **3-Month Paid Offline Internship** through the Roystian ecosystem in **Hyderabad**. Potential areas include AI & Technology, Software Development, Automation, Sustainability, Research & Innovation, and Business Operations.

Selection is based on applicable assessments, project performance, interview, availability and eligibility.

Roystian Technology Ecosystem

From Learning to Real-World Experience

⚠ Do not describe this as a T-Hub-certified or T-Hub-approved internship unless T-Hub formally authorizes such wording.

T-Hub Ecosystem Positioning

A Hyderabad Startup Ecosystem Connection

Roystian Advanced Technologies operates from the **T-Hub ecosystem in Hyderabad**. This can provide an additional ecosystem context for selected students who progress to the offline internship pathway, subject to applicable workspace/access arrangements.

Future Opportunity

Explore formal collaborations with innovation ecosystems, academic institutions and startup networks.

Recommended Website Wording

"Selected students may have an opportunity to undertake a paid offline internship through the Roystian technology ecosystem in Hyderabad."

The Opportunity Is Earned.

Roystian Talent Fellowship

An Advanced Pathway for High-Performing Students

Selected candidates may receive a comprehensive package designed to accelerate their professional development:

3-Month Paid Internship

Real project exposure in a technology environment

Mentorship

Guidance from experienced professionals

Professional Portfolio

Technology experience + internship completion certificate

> **Your performance can open the door to the next stage.**

For Colleges

Give Your Students More Than a Certificate.

Roystian Foundation can work with institutions to provide a comprehensive student development program:

- Structured Internships
- Skill Development
- Practical Projects
- Assessments
- Industry Challenges
- Career Readiness
- Resume Support
- Interview Preparation
- Digital Portfolios
- Advanced Opportunity Pathways

Roystian Campus Dashboard

Placement teams can eventually see real-time data on their students' progress and career readiness. **Use real data only after the system is operational.**

From Skills to Opportunities

PehlaChance Integration

Build your career evidence with Roystian. Discover opportunities through PehlaChance.

Keep both brands clearly separated in all communications and website copy.

Every Achievement Should Be Verifiable.

Certificate ID

RF-2026-XXXXXX

QR Verification

Scan to verify instantly

Verification Page Displays

- Student name
- Program & domain
- Completion date
- Certificate ID
- Verification status

Status: 🟢 **VERIFIED**

Built for Transparency

Clearly display all of the following — particularly important before accepting online payments:

Section 8 Organisation

Roystian Foundation — clearly identified

Program Information

Clear pricing + transparent selection criteria

Certificate Verification

QR-enabled verification for every certificate

Internship Terms

Clearly explained + refund/cancellation policy displayed

Legal Pages

Privacy Policy + Terms & Conditions clearly displayed

Skills Should Create Opportunity

Roystian Skill Scholarship

Introduce a future scholarship program to ensure talent is not limited by a student's ability to pay. Potential support levels based on transparent eligibility criteria:

100% Support

Full scholarship for eligible students

75% Support

Partial scholarship tier

50% Support

Partial scholarship tier

> **Talent should not be limited by a student's ability to pay.**

Our Impact

Eventually display verified live numbers. **Never use placeholder numbers publicly once the website launches.**

About Roystian Foundation

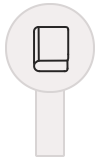

Building Impact Through Skills, Innovation & Opportunity

Roystian Foundation is a Section 8 non-profit organisation working across Education, Skill Development, Animal Welfare, Environmental Sustainability, Community Development, and Social Innovation.

Student initiative focus: Help students develop practical capabilities, demonstrate their skills and prepare for meaningful professional opportunities.

One Student Journey. Multiple Pathways.

The Roystian Ecosystem

Roystian Foundation — Learn

Internships + Projects — Build

Assessments + Portfolio — Prove

Career Tools — Prepare

Talent Fellowship → Advanced Technologies → PehlaChance

Website User Types

The system should be designed around four primary users, each with an appropriate dashboard:

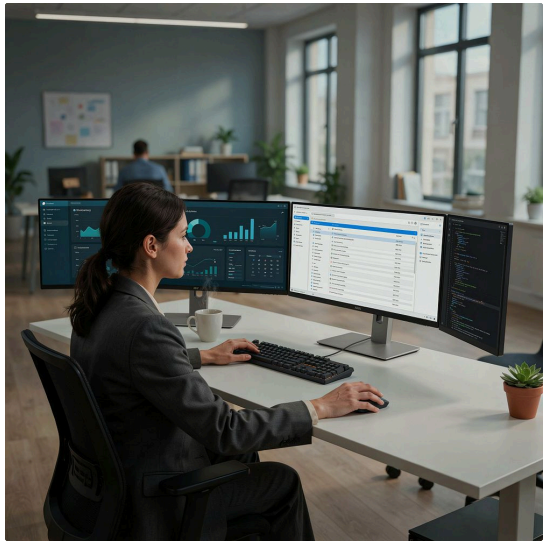

👨‍🎓 Student

Learning + Career development

🏫 College

Institution + Analytics

👨‍💼 Admin

Program + Student Management

🤝 Partner / Employer

Talent + Opportunity

Phased Development

Don't Build Everything at Once.

Phase 1 — Public Website

1

Homepage · Programs · Domains · Pricing · College page · About · FAQ · Legal · Certificate verification

Phase 2 — Student Platform

2

Login · Dashboard · Learning · Assessments · Projects · Certificates · Portfolio

Phase 3 — Career System

3

Career Readiness · Resume Builder · LinkedIn Builder · Badges · Mock Interviews

Phase 4 — College System

4

College Dashboard · Analytics · Skill Gap Reports

Phase 5 — Opportunity Engine

5

Talent Fellowship · Paid Internship Selection · Challenges · PehlaChance Integration

Design Direction

The Website Should Feel Like: EdTech + CareerTech + Startup Ecosystem

Not This

- ❌ Traditional NGO website
- ❌ Coaching centre
- ❌ Certificate-selling website
- ❌ Generic internship portal

Visual Direction

Modern · Premium · Technology-driven · Student-friendly · Professional · Interactive · Mobile-first

UI Elements

Progress bars · Dashboards · Skill graphs · Badges · Project cards · Career timelines · Micro-animations · Professional data visualisation

Brand Experience

Every page should communicate these six core brand values:

Practical

Students do things.

Measurable

Students are assessed.

Verifiable

Achievements can be verified.

Career-Focused

Students build professional evidence.

Opportunity-Oriented

High-performing students can progress further.

Social-Impact Driven

The Foundation creates accessible pathways.

The Most Important Product Principle

Don't Sell the Certificate.

Sell the Journey.

❌ Not This

PAY → CERTIFICATE

✓ This

Join → Learn → Practice → Build → Get Assessed → Create Career Evidence → Complete Internship → Get Certified → Prepare for Opportunities → Compete for Advanced Internship

The New Value Proposition

For Students

Build skills. Build projects. Build your professional profile.

For Colleges

Give students structured practical exposure and measurable career-readiness insights.

For Employers / Startups

Discover students with demonstrated skills and project evidence.

For the Foundation

Create scalable pathways from education to opportunity.

ROYSTIAN FOUNDATION

Student Career & Industry Readiness Platform

Learn. Build. Prove. Get Opportunity.

1. Classroom
2. Practical Skills
3. Projects
4. Career Evidence
5. Industry Experience
6. Opportunity

Final Homepage CTA

Your Degree Opens the Door. Your Skills Take You Further.

Don't just collect certificates. Build something. Prove something. Show what you can do.

Explore Internships | Take Skill Assessment | Partner Your College

Development Direction

Instruction to the Development Team

The current website is **Version 0.1**. Do not create a separate website — upgrade the existing website into the full Roystian Student Career & Industry Readiness Platform.

1 Preserve & Improve

Preserve existing content that works. Improve visual design substantially. Introduce student-first UX and a dedicated college proposition.

2 Build Architecture

Build architecture for future student and college dashboards. Introduce Career Passport, Career Readiness, project evidence, and advanced internship selection.

3 Brand Integrity

Keep Roystian Foundation, Roystian Advanced Technologies and PehlaChance clearly separated. Do not make unsupported claims about T-Hub recognition/certification.

4 Scale for India

Make the platform scalable for colleges across Telangana, Andhra Pradesh, Karnataka and eventually all of India.

The Final Instruction

The website should make each audience feel something specific:

> **Student:** "This is not just another internship certificate."

> **College Placement Officer:** "This can help us systematically develop, measure and showcase our students' career readiness."

> **Parent:** "My child is actually building something useful here."

ROYSTIAN FOUNDATION

Student Career & Industry Readiness Platform

Website V2 — Product, UX & Feature Expansion Blueprint

From Classroom to Career.

Building Skills. Creating Evidence. Unlocking Opportunity.

LEARN | BUILD | PROVE | PREPARE | GET SELECTED | EXPERIENCE | OPPORTUNITY
